

Let's Make Ice Cream in a Plastic Bag

Let's make ice cream in the Snow

Point

You can make **-20°C** temperature using
Snow and Salt

Materials

- Snow
- Salt(500g)
- Milk(100ml)
- Sugar (30g)
- Fresh cream(100ml)
- Bowl of stainless steel
- Resealable plastic bags (2)
- Shopping bag
- ※Additional…vanilla essence

✿Making -20°C✿

1

Put snow into the bucket about 80 % fills.

2

Mix the salt (500g).
Put snow with salt into two shopping bags (piled up).

✿ Making ice cream ✿

- 1 Put milk, fresh cream, and sugar in a stainless steel bowl and mix it.

- 2 •Put it into the resealable plastic bag.

- 3 Put the resealable plastic bag inside the other resealable plastic bag.

- 4 •Put it inside the shopping bag with snow and salt.

- 5 Rub the shopping bag until the ice cream gets hard.

✿ Progress ✿

Let's change the taste!

You can make various ice creams flavor with your ideas.

💡 Information

- ✦ Mixing snow 300g and Salt 100g (snow:salt=3:1) will give you a temperature of -20°C .
- ✦ In summer, you can make low temperature with shaved ice and salt.
- ✦ You can control the hardness or softness of ice cream using plastic bags.
